### University of Missouri System Undergraduate Financial Aid Summary Report FY2011-FY2015 (Missouri Resident Undergraduates)

### **Executive Summary**

The *Undergraduate Financial Aid Summary Report* includes undergraduate financial aid distribution patterns for the University of Missouri System and the four campuses from fiscal year 2010-11 (FY11) through fiscal year 2014-15 (FY15). In the first part of this report nine questions are addressed at the UM System level:

- 1. How many students received aid and what type of aid was received?
- 2. Has grant aid kept pace with increases in tuition and required fees?
- 3. How has the distribution of institutional gift aid changed over the past five years?
- 4. How has the distribution of PLUS loans changed over the past five years?
- 5. What percent of tuition and required fees is met by grant aid?
- 6. How has the number of aid recipients with need changed by income level?
- 7. How do financial aid packages vary by income level?
- 8. For students that have need, what is the average amount of unmet financial need?
- 9. Can families afford to pay the expected family contribution?

The second part of the report provides campus-level financial aid distribution patterns for the past five years, which may differ from system-level findings.

# System-wide trends highlighted include:

- Total aid to students with need is awarded from a combination of aid based on merit and aid based on need. Over the past five years, there has been a 1.1% increase in the overall number of full-time, degree-seeking Missouri undergraduates and a 4.3% decrease in the number of financial aid recipients that have financial need. (Figure 1.1). During the same time period, tuition and required fees increased 10.6% and the overall cost to attend the University increased 5.5% (Figure 1.2).
- The gap between tuition and required fees and the average grant aid awarded to undergraduates over the past five years has remained relatively stable (Figure 1.2).
- The number of institutional grants awarded based on need increased from 3,182 in FY11 to 5,941 in FY15 (Table 1.1).
- Missouri resident undergraduate students in the lower income categories had the highest grant aid as a percentage of tuition and required fees (Table 1.2).

• The total volume of Parent Loans for Undergraduate Students (PLUS loans) decreased from FY11 to FY15. In FY11, 4,128 parents borrowed an average \$10,168 to meet their child's education expenses. Five years later, 3,613 parents borrowed approximately \$12,080 to cover these expenses. System-wide

### The contextual basis of financial aid distribution

Less than 20% of undergraduates attending the University of Missouri pay the entire cost of attendance out-of-pocket. The majority of students receive some type of financial assistance to attend the University in the form of grants, scholarships, work study or loans. In addition, financial assistance comes from a wide variety of sources including the state and federal governments, profit and non-profit organizations, and the University (institutional gift aid). In addition, a significant amount of financial aid that is distributed is based on financial need (i.e. it is documented that the student's family cannot afford the entire cost of attendance). A student must complete a Free Application for Federal Student Aid (FAFSA) in order to determine the extent of financial need and the type and amount of aid based on need that can be awarded.

Many of the tables and figures throughout this report reference terms such as budgeted cost of attendance, financial need, grant aid, and unmet need. Assuming that a student has completed a FAFSA, Figure A.1 is provided to give an overview of how a student's financial aid package is determined.

- \$23,778 Budgeted Cost of Attendance includes tuition & required fees, books, and living expenses
  - (4,529) Less: Expected Family Contribution

19,250

# Section I

# System-wide Financial Aid Trends of Full-Time, Degree-Seeking Missouri Undergraduates from FY11 to FY15

**PLEASE NOTE:** The findings below highlight system-wide trends at the University of Missouri. Financial aid trends may differ by campus and are included in the second part of this report.

# 1. How many students received aid and what type of aid was received?

The total number of full-time, degree-seeking resident undergraduates slightly increased over the past five years from 32,486 to 32,852, an increase of 1.1%. There has been a 4.3% decrease in the number of students with financial need from 18,097 in FY11 to 17,317 in FY15 (Figure 1.1).

# 2. Has grant aid kept pace with increases in tuition and required fees?

Over the past five years tuition and required fees increased 10.6% and the budgeted cost of attendance increased 5.5% while average grant aid increased 17.2%. The overall trend is that there is a stable gap between tuition and required fees and the average grant aid awarded to undergraduates (Figure 1.2).

# 3. How has the distribution of institutional gift aid changed over the past five years?

There has been a significant increase in the overall number of students with need that received institutional grant aid, and the average institutional grant award increased nearly \$110 over the past five years. In FY11 there were 11,380 institutional grants awarded to students with need. The average award amount was \$2,874. Five years later there were 14,898 institutional grants awarded to students with need and the average amount of the award was \$2,983. The university continues to award the majority of institutional gift aid to students with financial need (Table 1.1).

# 4. How has the distribution of PLUS loans changed over the past five years?

The overall volume of Parent Loans for Undergraduate Students (PLUS loans) decreased from FY11 to FY15. In FY11, 4,128 parents borrowed an average \$10,168 to meet their child's education expenses. Five years later, 3,613 parents borrowed approximately \$12,080 to cover these expenses. System-wide, the amount of PLUS loans distributed increased from \$42 million in FY11 to \$43.6 million in FY15 (Table 1.4).

# 5. What percent of tuition and required fees is met by grant aid?

Lower income students have the most financial need and on average receive much more grant aid than higher income students. In FY11, grant aid covered nearly 82% of tuition and required fees for students with income less than \$20,000 and 84% for students with income between \$20,000 and \$40,000. By FY15, grant aid covered 83% of tuition and required fees for students with income less than \$20,000 and 83% for students with income between \$20,000 and \$40,000 (Table 1.2).

#### i-o, $ncyw1.15ec \ IT \ 0.Td5d1.(e(a)6(n)2(-2.69J0.-29.37()4(6.33 - u)-114(1)-2.7150.00-2T \ 1TJ 0 \ Tc \ 0$ 6. How has the number of aid recipients with need changed by income level?

From FY11 to FY15 there was a decrease in the number of aid recipients with need in all income categories except for students with income greater than \$100k. The number of aid recipients with need with income greater than \$100k increased 19% from 1,506 to 1,789 (Table 1.5 hhe maby0(m)u0(g)10(um)-2()-2(os)-1(9%)3(t)-2(f-62(d r)aa)4(nc)4(i)-(i)-2(t)57 0 Td () for F1y10(a)4(v4(0(m))-2(he(0(m))30310(-1(pc)4u-2()-2(-0, oi(2T4(i)-, oi(2T4(i)-)2(a)t<e)6-3k)-(iv0)) for for four for the four formation of the four four formation of the four formation
