## University of Missouri System Undergraduate Financial Aid Summary Report FY2008FY2012

Report Prepared by
Dr. La Shonda Carterone
Senior Institutional Resear Analyst

Office of Institutional Research and Planning 714 Lewis Hall University of Missouri System

Novembe2012

IR&P 2012, Report 4

Boonel@umsystem.edu 573884-3104

- x Missouri nonresident undergraduate students in the lower income categories have the highest grant daias a percentage of tuiticamd required fees (Table 1.2).
- x The volume of Parent Loans for Undergraduate Students (PLUS) loanseased from FY08 to FY12 for both nonresident students with and without financial need. In FY08, 543 peants borrowed an average \$14,395 to meet their child's education exenses. Five years later, 1,119 persent provided approximately \$17,281 to cover these expenses. Systems, the amount of PLUS loans distributed increased from \$7.8 million in FY08 to \$19.3 million in FY12 (Table 1.4).
- x Students with incomes less than \$40,000 tend to have the highest amount of financial need and receive larger total financial aid awards than higher income students. However, lower incomeduents continue to have the largest amount of unmet financial need (Figure 1.4).
- x The unmet financial need of nonesident students increased in all income levels over the past five years (Figure 1.5).

The contextual basis of financial aid distribution

Roughly30% of nonresident undergraduates attending the University of Missouri pay the entire cost of attendance outpocket. The majority of noresidentstudents receive some type of financial assistance to attend the University in the fogranouts, scholarships, work study or loans. In addition, financial assistance comes from a wide variety of sources including the state and federal governments, profit and original organizations, and the University (institutional gift aid). In addition, a significant amount of financial aid that is distributed is based on financial need (i.e. it is documented that the student's family cannot afford the entire cost of attendance). A student must complete a Free Application for Federal Student Aid (FAFSA) in order to determine the extent of financial need and the type and amount of aid based on need that can be awarded.

Many of the tables and figures throughout this report reference terms such as budgeted cost of attendance, financial need, grant aid, and unmet need. Assuming that a student has completed a FAFSA, Figure A.1 is provided to give an overview of how a student's financial aid package is determined.

\$23,455	Budgeted Cost of Attendance

Foremost, a BUDGETED COST OF ATTENDANCE (COA) is determined for yeve student that completes a FAFSA. The COA varies by student and is based on factors such as residency status, load status (full of tiprate), and living arrangements (on or

## Section I

Systemwide Financial Aid Trends of Full-Time, DegreeSeeking NonResident Undergraduates from FY08 to FY12

PLEASE NOTE: The findings below highlight systemide trends at the University of Missouri.

1. How many nonresident students received aid and what type of aid was received?

The total number of fultime, degreeseeking norresident undergraduates steadily increased over pastifive years from 4,525 to 63,55, an increase of over 50% with this increase in enrollmenthere has been 729.3% increase in the number with financial need from 1,495 in FY08 to 2,680 in FY12 (Figure 1.1).

2. Has grant aid kept pace with increases in ttion and required fees?

Over the past five years tuition and required fees increased 17% and the budgeteds of attendance increased 07% while average grant aid decreased 100.6 The overall trend is that there is and reasing gap between tuition drequired fees and the average grant aid awarded to nonesidentundergraduates (Figure 1.2).

3. How has the distribution of institutional gift aid changed over the past five years?

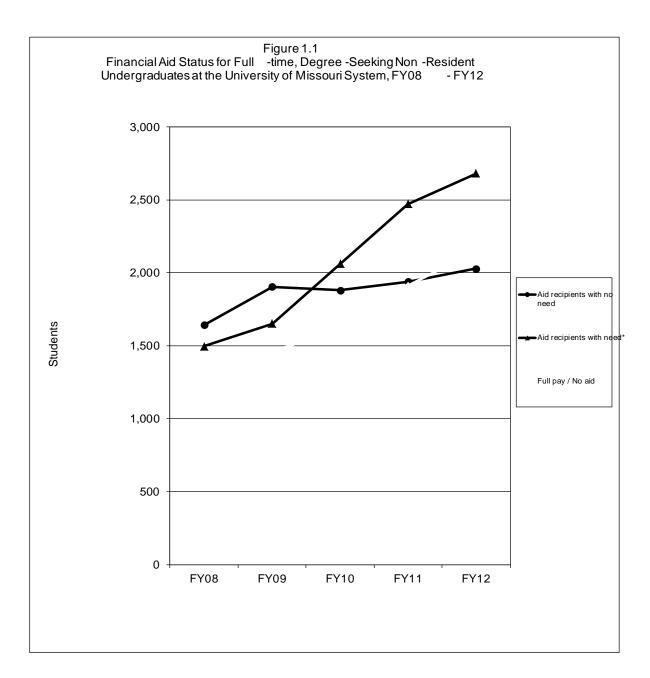

Both the number of nonesidents eceiving and average institutional grant award have increased In addition, there has been a dramatic shift in the type of institutional gift aid awarded to students with need. In FY08 nearly 64 all institutional grant aid awarded to students with need was awarded based on merit and 31% was assed on need. By FY12 only 27% of all institutional grant aid awarded to students have was based on need and 6% was based on merit (Table 1.1).

4. How has the distribution of PLUS loans changed over the past five years?

The volume of Parent Loans for Undergraduate Students (PLUS) loanseased from FY08 to FY12 for both students with and without financial need. In FY08 546rps borrowed on average \$,395 to meet their child's education expenses. Fixes later, nearly 1,120 pares borrowed approximately \$1281 to cover these expenses (Table 1.4).

5. What percent of tuition and required fees is met by grant aid?

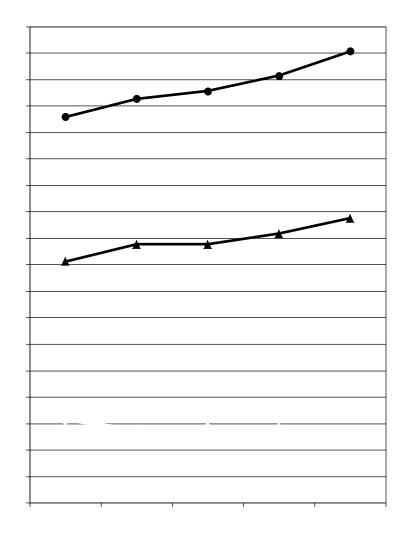

Lower incomenon-residents have the most financial need and on average receive much more grant aid than the income students. In FY08, grant aid covered nearly 52% of tuition and required fees for students with income less than \$20,000 \text{%nfb}4\text{Students} with income between \$20,000 and \$40,000. By FY12, grant aid covered affituition
